EDITORIAL

Native Spirit is first and foremost a range of customisable essentials, developed with exacting sustainability criteria to make desirable fashion sustainable. Since it was founded, the brand has been committed to designing quality fashionable garments that stand the test of time, meeting the expectations of professionals in terms of eco-responsibility.

The brand develops timeless styles for men, ladies and kids in a palette of colours inspired by nature. Nature plays a part at every stage in our collections' development, guiding our choice of shades, materials and production methods to comply with the need to help make fashion more responsible.

Always innovative and striving for the best, we are expanding our collection in 2025 with the addition of new references and new colours to our existing selection. Garments made from eco-responsible materials, certified by strict control labels to meet the environmental and social criteria that are important to us.
